This presentation has been prepared by QANTM Intellectual Property Limited ACN 612 441 326 ("QANTM" or the "Company"). The information contained in this presentation is for information purposes only and has been prepared for use in conjunction with a verbal presentation and should be read in that context.

The information contained in this presentation is not investment or financial product advice and is not intended to be used as the basis for making an investment decision. Please note that, in providing this presentation, QANTM has not considered the objectives, financial position or needs of any particular recipient. QANTM strongly suggests that investors consult a financial advisor prior to making an investment decision.

No representation or warranty, express or implied, is made as to the fairness, accuracy, completeness or correctness of the information, opinions and conclusions contained in this presentation. To the maximum extent permitted by law, none of QANTM, its related bodies corporate or its shareholders nor their respective directors, officers, employees, agents nor advisors, nor any other person, accepts any liability, including, without limitation, any liability arising out of fault or negligence for any loss arising from the use or application of information contained in this presentation.

This presentation may include "forward looking statements" within the meaning of securities laws of applicable jurisdictions. Forward looking statements can generally be identified by the use of the words "anticipate", "believe", "expect", "project", "forecast", "estimate", "likely", "intend", "should", "could", "may", "target", "plan", "quidance" and other similar expressions. Indications of, and guidance on, future earning or dividends and financial position and performance are also forward-looking statements. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties and other factors, many of which are beyond the control of QANTM and its related bodies corporate, together with their respective directors, officers, employees, agents or advisers, that may cause actual results to differ materially from those expressed or implied in such statement. Actual results, performance or achievements may vary materially from any forward looking statements and the assumptions on which those statements are based. Readers are cautioned not to place undue reliance on forward looking statements and QANTM assumes no obligation to update such information. Specific regard should be given to the risk factors outlined in this presentation (amongst other things).

This presentation is not, and does not constitute, an offer to sell or the solicitation, invitation or recommendation to purchase any securities and neither this presentation nor anything contained in it forms the basis of any contract or commitment.

Certain financial data included in this presentation is not recognised under the Australian Accounting Standards and is classified as 'non-IFRS financial information' under ASIC Regulatory Guide 230 'Disclosing non-IFRS financial information' (RG 230). This non-IFRS financial information provides information to users in measuring financial performance and condition. The non-IFRS financial information does not have standardised meanings under the Australian Accounting Standards and therefore may not be comparable to similarly titled measures presented by other entities, nor should they be interpreted as an alternative to other financial measures determined in accordance with the Australian Accounting Standards. No reliance should therefore be placed on any financial information, including non-IFRS financial information and ratios, included in this presentation. All financial amounts contained in this presentation are expressed in Australian dollars and rounded to the nearest \$0.1 million unless otherwise stated. Any discrepancies between totals and sums of components in tables contained in this presentation may be due to rounding.

IP Services

The protection of IP rights is essential to asset, brand and trade marks held by corporations, government agencies, institutions, technology providers and entrepreneurs and for protecting the R&D investment of these organisations.

IP Protection

Global consumer goods example.

Apple iPhone

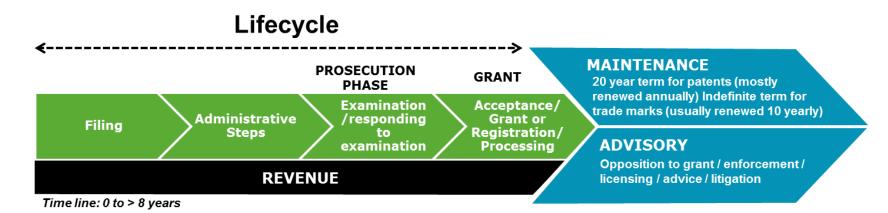

- Criticality of patent protection over 150 separate patents
- Extensive trade mark protection
 - logo, names (Siri, Garage Band....)
 - well over 200 for Apple products
- Multi-jurisdictional, international patent and trade mark coverage
- Legal and litigation protection (the 'phone wars')
- Patents insurance for R&D investment
- Trade marks insurance for brand integrity and marketing

IP lifecycle revenue stages

Main revenue components of the IP cycle:

Filing, prosecution, maintenance/renewal phases, with potential for advisory, legal/litigation services. Originating application work for new inventions, at a pre-filing stage, also generates revenue.

- Revenue generation at various stages of maintaining and enforcement of IP rights
- Client relationships tend to be long term and stable 18 months 20 years+
- Client arrangements can be national, regional, multi-national
- Reciprocal arrangements internationally generate additional revenue streams

Growth potential has not as yet been realised.

Offices (Melbourne, Sydney, Brisbane, Singapore, Malaysia, New Zealand)

△ Serviced through agency relationship

QANTM-Xenith

Merger rationale remains compelling.

- ✓ Will create a market leading group of independent IP services businesses in Australia, NZ and Asia
- ✓ Xenith and QANTM shareholders would own 45% and 55% respectively of the merged group
 - share in the value upside from increased scale, efficiency and realisation of expected synergies
- QANTM and Xenith are aligned in culture and strategy
- Accelerates growth in Asia
- Drives automation and innovation
- ✓ Enhances career opportunities

Summing up

- IP sector attractive yield and defensive style characteristics
- In QANTM's case favourable growth dynamics
- QANTM warrants serious investment consideration:
 - culture, technical skills, strength of IP market presence through DCC, FPA and Advanz Fidelis IP
 - ability to provide end to end patent and trade mark, legal and litigation services and advice
 - potential stronger growth profile than other players through Asian/regional expansion plans
- Disciplined approach to capital deployment
